Ext. 5049

Mr. William Reeves  
Department of Epidemiology-  
Warren Hall  
University of California  
Berkeley, California

Dear Mr. Reeves:

Professor Jenkins wrote me about your interest in molecular genetics, and because of our interdisciplinary orientation at Stanford, thought I might be in a position to offer some advice concerning your graduate training. I would be glad to discuss this with you, and suggest you call my secretary, Mrs. Friedman, to arrange a convenient time.

Sincerely yours,

Joshua Lederberg  
Professor of Genetics

Reeves, W.
